

We are the premier resource for companies that need to generate a better return on the sale of equipment they no longer need.

Xtech Gear Inc., has specialized in generating top dollar for your excess and surplus inventory since 1999.

We have facilities in place to handle the testing, repair and sales of networking manufacturers such as Nortel, Cisco/Cerent ONS, Cisco Routers, Tellabs DACS and Lucent Technologies 5ESS, Anymedia and FT2000. We also possess the inventory management skill and processes necessary to facilitate any type of asset recovery efforts, from outright purchasing of the equipment to a consignment type agreement with the equipment owner.

This gives us unparalleled advantage in the market to better serve you in recovering capital from your excess equipment.
