

The Lucent AnyMedia Access System is a cost effective way to provide a broad range of voice, IP/Ethernet and ATM-based data services all within one platform. Application Packs are able to be configure in a multitude of ways, enable you to provide your clients with the services and dependability that they require.

We are able to provide a full range of testing and repair services for Lucent Anymedia circuit packs. Our AnyMedia configuration, being tied in with some of our other systems, allows us to place real live traffic over the circuits we are testing, allowing us to be sure that the circuit packs will perform in the field as they do in our test lab.

The following is a list of selected Lucent Anymedia circuit packs that we have had success testing and repairing:

- LPA380
- LPA380C
- LPA300
- LPA300C
- LPA300D

- MSU100

- COM101
- FAC100
- DTP100
- DTP101
- LPU116
- BDJ200

- LPA416
- LPA350
- LPA356
- LPA404

- LPA901

- MSU100
